### THE TUNNEL BILL

The wish of the New York Central, expressed by its President, that the Legislature direct the Fourth Avenue Tunnel to money-making profession. be lighted and ventilated, is liable to be The bills of Assemblyman SULZER and Assemblyman Byene will be combined and amendments made to being convinced that that official was ruinmeet every objection offered by the rall- ing the country. road company. Mr. SULZER's bill has been and the future action of these legislators laying out of McKisher. will show whether or not Mr. Depew is sinthe New York Central to make the Fourth National nomination in 1892. Avenue Tunnel the safest and best in the world, regardless of expense.

Assemblyman Joseph Blumenthal, of the grass, the Twenty-second District, has shown himself as an obstructer of a measure which the people who sent him to the Legislature to be pinched. earnestly desire. Why Mr. BLUMENTHAL did this is best known to himself. He should be aware, however, that when a measure wholly in the interests of the people is offered the people have the right to know why it is opposed by their representatives, and also that opposition without reason or good grounds is liable to cause comment-perhaps investigation

THE EVENING WORLD is in earnest in its effort to make the Fourth Avenue Tunnel safe, and while it is willing and anxious to engaged hear and combat good arguments, it purposes to fight everything that savors of far he has not included a troupe of trained microbes unreasonable opposition and anything that seems done in the interest of the cor poration against that of the people.

That the tunnel shall be safe is the wish of the citizens of New York. Any unnecessary stumbling blocks laid in the way will be promptly thrown aside, and if those responsible for them are hurt in the operation it will be their own fault.

WHO FOUND THE GRIP MICROBE?

men claim the distinction of having made a receives amounts to \$1,000. great discovery. Dr. GENTHY, of Chicago, Bishop Katzer, whom the Pope has made Archsent forth a few days ago the glad tidings that he had torn the microbe of the grip from his lair, and he presented the little fellow to all his friends with great delight,

account of the discovery was given in the December Democrat and Chronicle of 1889. so there is no gainsaying it.

This throws a slight gloom over an event which would otherwise be as joyous as a camp-meeting. Dr. MYERS says Dr. GENTRY's microbe tallies exactly with his : so the doctors cannot fall back on different discoveries. But perhaps neither gentleman is anxious to have the microbe named after him. If they will only join forces amicably and attack him, now that the have located the monster, they may gather a joint victory which will shed richer glory upon each. The grip microbe is one of those things which every family should be without.

LET THE APPORTIONMENT BE PAIR. The fight over the reapportionment for Senate and Assembly districts is at hand in the State Legislature. It is likely to be more than ordinarily bitter, because of the unsatisfactory and inaccurate character of the late National census. But however high may run the tide of partisan feeling in the struggle, those who have the leading of the factions should bear in mind that there is no matter in which a party can less afford to be otherwise than fair and square. Gerrymandering is a proceeding which entails a boomerang effect for whatever party attempts it. Retribution may be slow, but it will be sure. The Legislature must be preserved as the truly representative body of the people.

Nelson is beyond question the greatest trotting stallion of the age, and there seems to be little doubt of his ability to reduce his aiready splendid record of 2.10%. It would be a serious loss to trotting interests to fail of having his further performances take place under proper auspices. He is too great a horse to be kept another season under the ban of an expulsion brought about by the blameworthy act of a single breakfast in any perticular way?"

"se, madam," he replied; "I prefer them fresh." so that his future performances may receive full and legal recognition.

Easter Sunday was a great deal better than it might have been. The sullen dawn relaxed into sunniness at high noon, and Fifth avenue was crowded. Well-tailored along in a stream of animated color; lilies and byacinths beamed from the windows: "allelums" broke from beflowered chancels, and the "Filli et Fillis" exalted and heart and resters beside, or discovered the species of the species

rejoiced in "the day which the Lord had made." It was a brilliant Easter and uman nature was very Spring-like.

nets are giving a lively character to the Irish elections, but they are not helping the Irish cause materially. Sligo is seething with partisan feeling and measures, the latter figuring chiefly as brickbats. Too much Sligo will make it no go for Ireland's interests. More repose in canvassing would be a decided improvement
